Inhouse Audio Visual Exclusive!

Thinnest Electronic Whiteboard in its Class!

PLUS Offers a New Lineup - The M-18 Series

Print or save notes in colour or black and white

Write - Print - Save

Thinnest in its class

42% Less

125mm — Previous Model

Only 72mm — M-18 Series

The M-18 is half as deep as the previous model. The M-18 can easily be wall-mounted without taking up much meeting room space.

Front mounted USB port

Easy connection of either USB memory stick or computer interface.

Magnetic board surface

Magnets can be attached to the board to hold printed material.

Includes FREE colour inkjet printer

The M-18 electronic whiteboard is also compatible with a selection of colour laser printers

Simple PC connection

Connect a PC to the M-18 via USB cable to save the content on the board. No software is required. Unplugging the USB cable will erase data on the board for security.

Eco-Friendly design

The M-18 has the lowest power consumption in the industry - Only 12 watts. This helps the environment as well as saving running costs.
