# Shintaro

## *Reliable and dependable quality*

Shintaro is an innovative technology company founded on one simple principle: To provide a range of quality, affordable, high-demand technology products, which users can trust and rely on. If it's on trend, Shintaro has it, and you can be assured it will be a cost-effective and creative solution.

Shintaro is a leading supplier of consumer products in the fields of Portable Storage, Digital Photo Frames, Optical Media, Camera Accessories, Keyboards and Mice. By keeping a close eye on developing technology trends, the Shintaro brand consistently offers smart, cost-effective and creative solutions to the personal technology demands of everyday life.

Products are brought to market according to strict quality and value standards. Whilst rarely the cheapest solution on the market, Shintaro product should be considered in best price discussion while always maintaining consistent quality criteria.

# Digital Photo Frames

*Share your precious memories*

---

---

Shintaro's Digital Photo Frames are a creative and eye-catching way to display your favourite memories in style. Display one static image or a slideshow. Shintaro's stylish designs will complement any location, from the living-room to your office desk, and they feature a clock/calendar so you will never miss a deadline again.

Don't hide your memories in a photo album; display them proudly with a Shintaro Digital Photo Frame.

## 8" Weather Station Photo Frame

### SHDPF8W

This photo frame plays videos, pictures, sound and also features a built in weather station. An outdoor sensor wirelessly communicates data to the photo frame to display current temperature, humidity and predict future weather patterns.

- High definition digital panel
- Displays indoor & outdoor temperatures & humidity
- Barometer function with moon phases

## 10.1" Motion Sensor Photo Frame

### SHDPF101

This digital photo frame utilises the latest LED panel technology to give you crystal clear images whilst saving power. Use the built in speakers to watch videos or listen to music.

- Power saving LED backlit panel
- Calendar, clock and alarm functions
- Supports video and sound
- 2GB of internal memory

## 15" Digital Photo Frame

### SHDPF15V1

Big bold and beautiful... the Shintaro 15" Digital Photo Frame displays your photos to their best advantage. It's also large enough to be used for digital signage.

- Supports video and sound
- Large built-in storage capacity
- High definition LCD panel
- 1GB internal memory

## Quality Acrylic Frames

By definition, Digital Photo Frames are all about the clarity of the images displayed. Whether you've spent hours setting up that perfect shot, or you just happened to have your camera on hand at exactly the right moment, your photos represent valuable memories and deserve to be viewed at their best. Shintaro Digital Photo Frames are designed with a host of innovative features to ensure your images are always bright and clear. As an example, Shintaro's family of Digital Photo Frames all feature high quality Acrylic bezels.

Shintaro chose acrylic rather than plastic because:

- Acrylic looks more stylish and appealing to the eye than the plastic frames used by other manufacturers
- Acrylic has a transparency rate of 93%, making it the clearest material known (even clearer than glass)
- Acrylic is strong, durable and, unlike some other manufacturers' plastic frames, it won't yellow or become brittle over time.

This, combined with Shintaro's consistent packaging standards across the range, makes Shintaro Digital Photo Frames arguably the most complete "family" of Digital Photo Frames available in Australia – as well as offering great value.

# Flash Memory & Card Readers

*Data storage & Memory card support*

---

---

Shintaro offers a range of flash memory products which are unique and most importantly, reliable. Whether you need to store information from your digital camera, MP3 player or computer, Shintaro will have a product to suit your needs.

Shintaro also offers a range of card readers, both internal and external, to make it easy to access or transfer your data from your memory card to your PC. Compatible with all of the popular card formats, you will easily find the right solution for you.

## Click Pocket Disks

### SH-C8GB

Shintaro's Click Pocket Disk has a unique clicking action to retract the connector, keeping it safe from damage for reliable storage.

\*\*Available in 4GB and 8GB capacities.

- Clicking action retracts connector
- Lightweight and compact
- ReadyBoost™ compatible

## Key Pocket Disks

### SH-K4GB

### SH-K8GB

One piece stainless steel. Large capacities are stored securely and files transferred quickly thanks to the quality memory which is also Windows ReadyBoost compatible.

\*\*Available in 2GB, 4GB and 8GB capacities.

- Stainless steel casing
- Premium reliable memory
- ReadyBoost™ compatible

## Rotating Pocket Disks

### SH-R8GB

### SH-R32GB

### SH-R4GB

### SH-R16GB

Shintaro's High Speed Rotary Pocket Disk is convenient and reliable, while providing file storage and simple transfer.

\*\*Available in 2GB, 4GB, 8GB, 16GB and 32GB capacities.

- Slim rotating design
- Lightweight and compact
- ReadyBoost™ compatible

## Bottle-O Pocket Disk

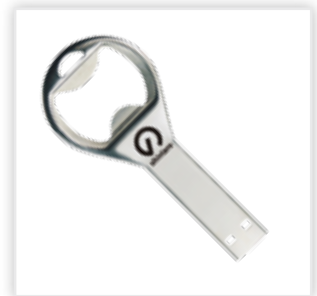

### SH-BO4GB

### SH-BO8GB

### SHBO16GB

The combination of quality components, intelligent design and the built-in bottle opener makes the Shintaro Bottle-O Pocket Disk a stylish, durable and versatile addition to any keyring.

- Hot Plug and Play
- Water resistant
- 10 years data retention
- Lightweight and compact

## Blazer USB3.0 Pocket Disk

### SH-S32GB3

Shintaro's Blazer Pocket Disk has a unique rotating action which retracts the connector as it swivels, keeping it safe from damage for reliable storage.

- Huge 32GB capacity
- Clicking action retracts connector
- Lightweight and compact
- ReadyBoost™ compatible

## SDHC Cards

**CLASS 6:** SHSDHC4GB6 SHSDHC8GB6  
**CLASS 10:** SHSDHC16GB10 SHSDHC32GB10

Shintaro's range of class 6 SDHC memory cards offers versatility, compatibility and security. Fast and reliable, they're available in 4GB, 8GB, 16GB & 32GB capacities.

- Stores data quickly
- Secure and Reliable
- Superior data transfer speeds

## Internal 3.5" Card Readers

**USB 2.0** SH-ICR3  
**USB 3.0** SH-ICR3USB3V2

Shintaro's Multicard Reader / Writer supports the largest range of memory card brands on the market, including all small form factor memory cards, without the requirement of an adapter. Available in USB2.0 or high-speed USB3.0.

- Supports all the latest memory card formats
- Fastest card reader on the market
- Essential for digital camera users

## 11 in 1 Card Reader

### SH-11IN1

The Shintaro 11 in 1 Memory Card Reader is a pocket sized memory card reader compatible with up to 11 of the most popular card types.

- Small enough to fit in your pocket
- Offers immediate memory card access
- High Speed transfer

## External USB Card Reader

### SH-XCR3

Shintaro's latest palm size Memory Card Reader / Writer supports the widest range of memory cards on the market - up to 30 different formats, including MicroSD and Compact Flash.

- High Speed transfer
- Convenient palm size
- Offers immediate memory card access

## Blazer External USB 3.0 Card Reader

### SH-XCRUSB3

Shintaro Blu-ray discs store over five times the capacity of traditional DVD's and can hold up to 25GB on a single-layer disc. High quality Blu-ray disk, designed for data and HD video. Thermal printable surface.

- Quality A-Grade thermal surface
- For data and HD video
- Single layer 25GB capacity

## What is ReadyBoost™?

ReadyBoost™ is a component of Microsoft Windows Vista and Windows 7 that enables you to use a USB device as extra system memory, which can help to speed up your computer. Simply connect the USB drive, choose 'Speed up my system using Windows ReadyBoost™' and then specify how much space ReadyBoost™ should use. You can choose to allocate part of a USB drive's memory to speed up performance and use the remainder to store files.

In order to get the best results from ReadyBoost™, you'll need between one and three times your system memory available. For example, if your computer has 512MB of RAM, you'll benefit most from ReadyBoost™ if you are able to give it between 512MB and 1.5GB of USB flash memory to play with.

# Optical Products

*Suitable for storing data and audio*

---

---

Shintaro media provides excellent quality, reliability and value for money. With the quality and compatibility your customers require, as well as an affordable price tag, Shintaro's range of optical media represents a wise choice.

When paired with Shintaro's super slim external optical drives, you have the ideal solution to burn your data when on the move.

## Blu-ray BD-R 6X Inkjet

### SH-256XBDRIJ10 Also Available: SH-506XBDRIJ10

Rated for Full HD video (1080p) with as many as 7.1 channels of digital surround sound the Shintaro Blu-ray disc offers an unprecedented total high definition experience.

- For data and HD video
- Single layer 25GB capacity
- Inkjet surface
- Available in single disk or 25 spindle

## CD-R 52x Inkjet 50 Spindle

### SH52X-50IJ Also Available: SH-52X-10SPIJ

Combining a high level of performance and excellent reliability, Shintaro CD-R media is the ideal storage medium for recording and sharing digital images, music and more.

- 700MB, 80min, 52x Recordable Disc
- Inkjet Printable surface
- Excellent quality at a competitive price
- Available in spindles of 10 or 50

## DVD-R 16x Inkjet Spindle

### SH4.7-R16C-10SPIJ Also Available: SH4.7-R16C-50IJ

With the quality and compatibility you require at an inexpensive price tag, Shintaro's range of DVD media make choosing the right media simple and easy.

- Low in error rates
- Compatible with all major drive manufacturers
- Available in spindles of 10 or 50

## DVD+RW 4X Inkjet 10 Pack

### SH4.7RW4IJ+10P

The Shintaro brand is your guarantee of quality, reliability and value. Choose Shintaro optical media with confidence and the assurance that it has been made to the very highest standards, using the very best materials. Compatibility, reliability and quality - Shintaro delivers.

- Re-writable: Perfect for data and video
- Compatible with all major drive manufacturers
- Excellent quality at a competitive price

## DVD+R Dual Layer Inkjet 20 Spindle

### SH8.5+RDL20

Renowned for quality, reliability and value, Shintaro's optical media range has a disk to suit almost every need. Made to exacting manufacturing standards, with consistently low error rates, Shintaro optical media is always a wise choice.

- Wide Inkjet Printable
- 8.5GB Capacity, for data and video
- Dual layer

## Slim Jewel Cases/Paper Sleeves

### SHJC25V2

### SHSLV

Shintaro's Slim Jewel Cases provide protection from dust and scratches, all in a slim profile design.

With Shintaro's CD / DVD paper sleeves, users can transport their CD / DVDs safely, protecting them from everyday handling.

## External Slim DVD/CD USB Drive

### SHDVDUSBV2

- Super slim design
- Supports virtually all DVD and CD formats
- Easy Plug & Play connection
- Strong aluminium housing

## External Slim BDR/DVD/CD USB Drive

### SHBDRDVDUSBV2

Shintaro's external Blu-ray writer offers an affordable and reliable solution for reading and writing Blu-ray, DVD's and CD's.

- USB Powered for Portability
- Quality Aluminium Chassis
- High Speed Read and Write

# External HDD Enclosures

*Transfer large capacities safely and securely*

---

---

The sleek design of Shintaro's external hard drive enclosures, innovative design of the hard drive docker means you will be spoilt for choice when looking for an external storage solution.

## 2.5" PATA Enclosure

### SH2-IDEB

The sleek design of this Shintaro enclosure is attractive and portable, perfect for those needing stylish data storage on the move.

- Add storage to PC and notebooks
- Unique, contemporary design
- One Touch and scheduled backup
- Includes a fashionable leatherette carry pouch

## 2.5" SATA Enclosure

### SH2-SATAB

This slimline case houses a robust enclosure supporting 2.5" SATA hard drives, with convenient One Touch backup and fast transfer rates of up to 480 Mb/sec via USB 2.0.

- Add storage to PC and notebooks
- Unique, contemporary design
- One Touch and scheduled backup

## 2.5" Blazer Enclosure USB 3.0

### SH2-SATA3B

The sleek design of the Shintaro 2.5" External SATA Enclosure is both attractive and robust, perfect for those needing stylish data storage on the move at USB 3.0 speed.

- Up to 10 times faster than USB 2.0
- Aluminium design for efficient cooling
- One Touch and scheduled backup

## 2.5" USB3.0 Docking Enclosure

### SH25RACK3

The Shintaro Removable 2.5" USB3.0 Docking Enclosure converts your unused PC bay into an HDD or SSD portable storage slot

- USB3.0 Transfer Speeds
- Plug & Play Connection
- Universal fitting for 2.5" SATA I/II/III HDD

## 3.5" PATA Enclosure

### SH3-IDEB

The Shintaro 3.5" External PATA Enclosure sports a uniquely fashioned housing constructed of aluminium to protect your precious data.

- Built in power supply
- Uniquely styled aluminium design
- One Touch and scheduled backup

## 3.5" SATA Enclosure

### SH3-SATAB

The Shintaro 3.5" External SATA Enclosure sports a uniquely fashioned housing constructed of aluminium to protect your precious data.

- Built in power supply
- Uniquely styled aluminium design
- One Touch and scheduled backup

## 3.5" SATA & eSATA Enclosure

### SH3-SATA2B

The Shintaro 3.5" External eSATA Enclosure sports a uniquely fashioned housing constructed of aluminium to protect your precious data.

- Built in power supply
- Uniquely styled aluminium design
- One Touch and scheduled backup

## 3.5" Blazer Enclosure USB 3.0

### SH3-SATA3B

Using USB 3.0, this enclosure offers transfer speeds of approximately 4.8 Gbps, enabling users to back up and upload information in a matter of seconds.

- Built in power supply
- Uniquely styled aluminium design
- One Touch and scheduled backup

## Hard Drive Docker SATA

### SH23SDOCKE

The Shintaro Hard Drive Docker is an innovative product which allows you to quickly and easily access files on SATA Hard Drives. Simply connect the device to the USB or eSATA Port and hot swap hard drives without needing to reboot the PC.

- High speed data access
- Plug and Play connection
- Supports 2.5" or 3.5" SATA drives

## Blazer HDD Docker USB 3.0

### SH23SDOCK3

The Blazer Hard Drive Docker USB 3.0 allows you to quickly and easily access files on SATA Hard Drives at USB 3.0 speeds.

- Super speed data access
- Plug and Play connection
- 2.5" or 3.5" SATA drives

## Hard Drive Docker IDE/SATA

### SH23SDOCKIS

This Hard Drive Docker allows you to quickly and easily access files on both IDE and SATA Hard Drives.

- High speed data access
- Plug and Play connection
- Supports IDE / SATA drives

## Portable HDD Duplicator

### SH-PHD

The Portable Hard Disk Duplicator allows you to copy the contents from your Hard Disk to another, without a PC and at the simple push of a button.

- LCD display with simple menu system
- Copy / Compare / Prescan / Erase
- Supports IDE / SATA drives

# Keyboards and Mice

*Essential extras for any workstation*

---

---

Wireless, sleek or ergonomic. Shintaro will have the solution you are looking for. From quiet-type key technology to Bluetooth, these unique designs will compliment any workstation, whether at home, at school or in the office.

## 2.4GHz Wireless Keyboard

### SH-KEYRF

The Shintaro Wireless Multimedia Keyboard features an ergonomic hand held design that allows it to sit comfortably either on a desktop or in your lap.

- Wireless range of 15 metres
- Integrated trackball
- Ideal for Home Theatre PC environments
- Contains convenient shortcut keys

### SHKEYMCE

Shintaro's Wireless Media Centre keyboard allows you to surf the web, watch movies & TV, listen to music or send instant messages and email all from the comfort of your couch.

- Designed for home theatre PC's
- Sleek and ergonomic design
- Convenient media control keys

## 107 Keyboard

### SH-KEY107V2

Shintaro Desktop Keyboards are perfectly suited for users needing a traditional keyboard that will survive in harsh environments.

- Quiet key technology
- Modern black layout
- Spill proof and durable design

## USB Multimedia Keyboard

### SHKB

Twenty one shortcut keys support multimedia interaction including Internet browsing, email referencing & video/audio playback control. An innovative silicon membrane reduces unwanted keystroke noise, while providing protection against liquid spills.

- Vista and MCE Multimedia Controls
- Spill Proof Protection
- Driver Free USB Connection

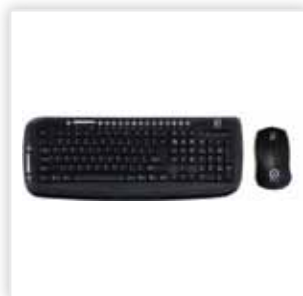

## Wireless Multimedia Keyboard & Mouse

### SHWKBM

Also Available: SHUKBM (USB Wired)

This robust and full featured keyboard and mouse set offers reliability accuracy and style.

- Vista and MCE Multimedia Controls
- Spill Proof Protection
- Driver Free USB Connection
- 3 Button Mouse

## Mini Bluetooth Keyboard

### SHBKB

The Mini Bluetooth Keyboard is the perfect companion for Tablets, Home Theatre PCs, Smart Phones and Game Consoles.

- 10m range via Bluetooth
- 84 keys with 17 hot-keys
- Built-in 600dpi trackpad
- Charge via MiniUSB Interface

## Optical Mouse

### SH-SM03

An ergonomically designed, stylish optical mouse suitable for almost any surface, with an optical sensor which gives the user great precision and reliability.

- Precise Tracking
- 3 Buttons with Scroll Wheel
- PS/2 and USB Support

## Notebook Mini Optical Mouse

### SHM02

Innovative cable management allows for a compact mouse, only 75mm long, making it easy to carry and therefore perfect for mobile users.

- Compact and stylish
- 3 Buttons with Scroll wheel
- Retractable USB cable

## Laser Gaming Mouse

### SHLM02

Selectable DPI settings give you the power to control the precision laser's movement, from low DPI for accuracy to high for fast movement.

- Switchable 1600 DPI Accuracy
- Six Programmable Buttons
- Multidirectional Tilt Wheel

## Wireless Mouse

### SHWM03

This Wireless Optical Mouse is ergonomically designed and can be used on almost any surface.

- High Precision 1600 DPI Accuracy
- 360° wireless range up to 10m
- Includes 2x AA batteries
- Built in battery saving function for extended usage

## Keyboards and Mice

With its wide selection of products featuring wired and wireless solutions, full-sized and mini options - Shintaro's range of keyboards and mice has a solution for everyone. From families, to students, office users to gamers – look to Shintaro for a quality keyboard or mouse that won't break the bank.

# Audio Products

*Crystal clear sound*

---

---

Designed for enhanced listening experiences, Shintaro audio products are made of quality components to ensure crisp, clear sound. From headphones to digital radios, Shintaro has a wide variety of audio products to suit your needs.

## Stereo Headphone

### SH-101

Listen to your favourite music or play games without disturbance. Shintaro introduces the ideal solution, with stereo sound and adjustable headset.

- Lightweight stereo headphones
- Flexible headband for easy adjustment

Offering exceptional sound and signal quality, the Shintaro digital radio also has a range of integrated features to enhance your listening experience.

- Exceptional sound & signal quality
- Portable battery or direct AC Power
- Stereo output to Hi Fi
- Affordable and stylish

## Stereo DAB+ Digital Radio

### SHSTDR

With automatic DAB stations preset scanning and the added reception DAB provides this radio allows you to enjoy superior audio quality with minimal setup time.

- Attractive modern styling
- LCD screen with backlight
- Aux in and Headphone out
- Built-in quality Stereo speaker

## Portable Wireless Vibro Speaker

**Bluetooth Wireless:** SH-V01BT-BK  
**Wired Model:** SH-V01TF-BK

Unleash your device with 360-degree sound you can feel! The Portable Wireless Vibro Speaker operates via Bluetooth enabled devices and when combined with solid surfaces, delivers powerful bass and rich sound.

- 10W Speaker, USB or Li-Ion battery powered
- 3.5mm or Bluetooth Input (Micro SD version also available)
- Includes USB cable

### Optional Accessories:

Glass Mount and Vertical Wall Mount  
SHVM01 - SHVM02

# Audio Visual Products

*Entertain family and friends*

---

---

Get the most from your audio visual devices by using our high quality HDMI products. Extend or Clone your desktop with ease with the Shintaro USB to HDMI monitor extender, use two screens for superior work efficiency.

## HDMI Cable

### HDMI180M

Delivering high quality sound and vision, the HDMI cable is the preferred method to connect high definition digital equipment.

- 1.8 metres
- HDMI 1.3b compatible
- Male-Male connectors

## USB to HDMI Monitor Extender

### SHUSBD

The USB to HDMI Monitor Extender allows you to add a digital HDMI output via a USB connection to your notebook or desktop computer.

- Plug and Play
- Supports Resolutions up to 1920x1080
- Ideal solution for extending your desktop across multiple screens or enjoying HD content.

## What is HDMI?

HDMI (High-Definition Multimedia Interface) is the first and only industry-supported, uncompressed, all-digital audio/video interface. HDMI provides an interface between any audio/video source, such as a set-top box, DVD player, or A/V receiver and an audio and/or video monitor, such as a digital television (DTV), over a single cable.

### HDMI digital interconnect provides:

- Superior, uncompressed digital video and audio quality
- A simple, single cable and user-friendly connector
- A popular interface enabling the transmission of high-definition content

# Connectivity Cards

*Easily move large volumes of data*

---

---

Versatile, dependable and affordable, Shintaro offers a wide range of quality Connectivity Cards to suit your every need. From the Shintaro USB 3.0 cards in both PCIe and Express card options, offering theoretical data transfer speed increases up to 10 times faster than USB 2.0, right through to e-SATA and Gigabit Ethernet cards and more, look to Shintaro for quality I/O solutions.

## Blazer USB 3.0 4-Port PCIe card

### SHUSB3PCIE3

The Shintaro USB 3.0 PCIe Card provides super speed connection to PCs and allows the connection of USB 3.0 peripherals over the industrial PCI Express slot.

- Up to 10 times faster than USB 2.0
- Ports: 3 external, 1 internal
- USB 1.1 & 2.0 compatible
- Read and write simultaneously

## USB 3.0 2-Port Blazer express card

### SHUSB3EX

The Shintaro USB 3.0 Express Card provides super speed connection to Notebooks and allows the connection of USB 3.0 peripherals over the industrial PC Express slot.

- Up to 10 times faster than USB 2.0
- USB 1.1 & 2.0 compatible
- Read and write simultaneously

## Firewire 1394 PCI Card

### SH-1394AI

Shintaro's 1394 firewire card is an easy way of moving large amounts of data quickly between peripherals and PCs, supporting data speeds up to 400 megabits per second (Mbps).

- Fast data transfer- 400 megabits (Mbps)
- Add more external devices to your desktop
- Daisy-chain up to 63 Firewire devices

## USB 2.0 5-Port Hi-Speed PCI Card

### SH-205N

Shintaro's USB 2.0 PCI card supports data speeds up to 480 megabits per second (Mbps). It has never been so easy to connect external storage, digital cameras, webcams and other high-speed devices.

- Adds 4 external USB 2.0 & 1 internal port to PCs
- Data speeds up to 480 Mbps
- So easy to connect external devices

## Blazer USB 3.0 4-Port Front Bay

### SH4PFB

With advances in technology devices, media formats and storage are converging. This hub provides the increased bus bandwidth needed for USB3.0 enabled devices

- Up to 10 times faster than USB 2.0
- USB 1.1 and 2.0 compatible
- 4 Convenient USB 3.0 Front Ports
- To fit 3.5" slot

## USB 3.0 4 Port Hub

### SHHUB4USB3

With the ability to simultaneously connect four USB 3.0 devices to your notebook or PC, the 4-Port USB 3.0 Hub is perfect for the traveller who doesn't want to sacrifice the convenience and speed of their external SuperSpeed USB 3.0 devices.

- 10X Faster than USB 2.0
- Compact & Portable
- Power Adapter Included

## USB 2.0 4 Port Hub

### SHHUB4V3

With the ability to connect 4 USB 2.0 devices simultaneously, this Shintaro Hub is perfect for the traveler who needs access to external USB devices.

- Conveniently add USB ports to any PC
- Ideal for desktop/notebook PC's
- Durable aluminium housing
- Suitable for all types of USB 2.0 devices

# Accessories

*Essential additions*

---

---

If protecting your notebook from tampering and theft is essential, then our range of security locks is for you. With a variety of different locking systems, there's one to suit your application.

## Extra Strength Security Lock

### SHLOCK-OEM1

Using a Die Cast locking cylinder, this device fastens to universal security slots. The 1.5 metre cable can be anchored to a desk or solid structure. Also available as OEM.

- Fits Universal slots
- Zinc alloy die cast housing & cylinder
- Black PVC coated 1.7 metre steel cable

## Extra Strength Double Lock

### SHLOCKDBL-OEM

Using a chrome plated lock barrel, this lock fastens to two devices using universal security slots. The 1.5 metre steel cable can be anchored to a desk or solid structure.

- Lock 2 devices with one lock
- Fits Universal slots
- Zinc alloy die cast housing & cylinder

## Notebook Lock Keyed Alike

### SHLOCK-OKA2

Using a zinc alloy die cast housing and cylinder, this device fastens to universal security slots. The 1.7 metre cable can be anchored to a desk or solid structure.

- 1.7 metre steel cable
- Fits Universal slots
- Black PVC coated
- Includes same key for all locks

## Notebook Combination Lock

### SHLOCK-COMBO

This easy-to-use combination lock fits universal slots, has a programmable 4 digit combination and 1.8 metre black PVC coated steel cable to keep notebooks securely anchored.

- Fits Universal slots
- Zinc alloy die cast housing & cylinder
- Vinyl coated 1.8 metre steel cable
- Programmable Combination

## Security PC Case Screw-Lock

### SHSCREWLOCK1

This security lock kit is an ideal solution to secure your expensive computer components, and prevent your hard disk from being stolen or tampered with, by securing it to the case.

- Protect your PC case from being opened
- Durable screw with key

## Mini Tripod - Black

### SH-MTBK

The Mini Tripod is ideal for a still or video camera, as support is essential for a sharp image in low light conditions. A perfect partner for your digital camera, it's compact and lightweight and easily adjustable.

- Height 14cm
- Width expands to 15cm
- Perfect for point and shoot cameras

## Security Locks

It's somewhat ironic that while the focus today is predominantly on high-tech, leading-edge solutions and complicated technological applications, one of the best defences against computer theft is neither high-tech nor electronic: Shintaro's range of Security Cable Locks.

Strong, secure and boldly visible, Shintaro Security Locks offer a simple, low cost yet effective method of securing a variety of devices. The selection includes single and double locks, keyed and combination locks, for notebooks or monitors, to suit a wide range of situations.

If you need to leave your device for any reason, whether in your office, home, hotel room - or anywhere else - the Shintaro range of Security Locks is the ideal choice. A highly visible theft-deterrent, Shintaro Security Locks are practical, inexpensive, and easy to attach to all compatible industry-standard lock slots.
